ESTRECHAR LA COMUNICACIÓN ENTRE GOBIERNO, SOCIEDAD CIVIL Y VISITANTES.
GLOBAL OBJECTIVE 2020

REDUCE ALCOHOL RELATED HARM BY 10%

Action Plan

- In 2013, WHO released a Global Action Plan for the prevention and control of Non-Communicable Diseases between 2013-2020
- Among the 9 Voluntary Global Targets:
  - Raise the priority and awareness
  - Strengthen capacity, leadership, governance and partnerships
  - Reduce modifiable risk factors
  - Strengthen health systems
  - Promote and support research and development of prevention
  - Monitor trends and determinants to evaluate progress in prevention

Objectives
Global Project Directives

- Identify indicators for alcohol-related harm in a social district
- Identify factors that contribute to high-risk drinking
- Establish a formal process for on-going organization of data from multiple sources
- Measure change in a social district

Directivas del Proyecto Global

- Identificar indicadores para daños relacionados con el alcohol en una zona social
- Identificar factores que contribuyan al consumo de alto riesgo
- Establecer un proceso formal para la organización continua de información de múltiples fuentes
- Medir los cambios en una zona social
WHAT FACTORS INFLUENCE SAFETY IN NIGHTLIFE?

A new, holistic paradigm is needed to:
- Assess high risk drinking in a district setting
- Evaluate a broad context in which alcohol consumption takes place
- Monitor change

Organized factors into 5 categories:
1. Market Forces
2. The Patron
3. The Venue
4. The District
5. Government

Historically, each of these factors were addressed individually. Our approach considers them as part of a holistic model.
THE RESPONSIBLE HOSPITALITY INSTITUTE (RHI) coordinated the Global City Social District Assessment and Evaluation. Funding for RHI's services was provided by Diageo, a leading global spirits and beer company, Diageo is committed to preventing and reducing alcohol abuse around the world. The company's DRINKiQ website was specifically created to cover all aspects of alcohol and give consumers the tools to make more informed choices about drinking, including the decision not to drink.
